If a message could pass, what would you like to say to the intended parents?

The reason I decided to register as an egg donor is because I am very healthy and I strongly wanted to contribute to couples undergoing infertility treatments in any way I can. I still vividly remember a friend of mine who, after infertility treatments, was overjoyed to share the news of their long-awaited child with me, and I cried with them. The birth of life is a miracle, and if I have a chance to contribute to that miracle, even in a small way, I would love to take on this challenge.
